"Speed Modul" for the multi-colour top printing of closures

As fully or semi-automatic machine for parts sizes up to Ø 70 mm

Combinable with LongCap high-performance automation "TOP SPIN LC"

technologies for your future
made in germany

ORIGINAL

Tampon printing machines
ALFALAS® Laser Systems
Automations

Combination example "Top Spin LC" (circular printing) + "Speed Modul" (top printing) printing of LongCaps (closures).

- Electromechanical, quick and accurate
- In 2010, TAMPOPRINT® extended their business field in the area for closure caps. Circular printing in combination with printing on tops of closure caps made of aluminium and plastic as well as pre-roller-burnished, unprinted blanks.
- 15.000 parts/h possible due to the development of the "Speed Modul" in combination with a newly-developed tampon printing machine "Speed 40-2".
- "Speed 40-2" - The quickest flat tampon printing machine worldwide.

Technical Data:

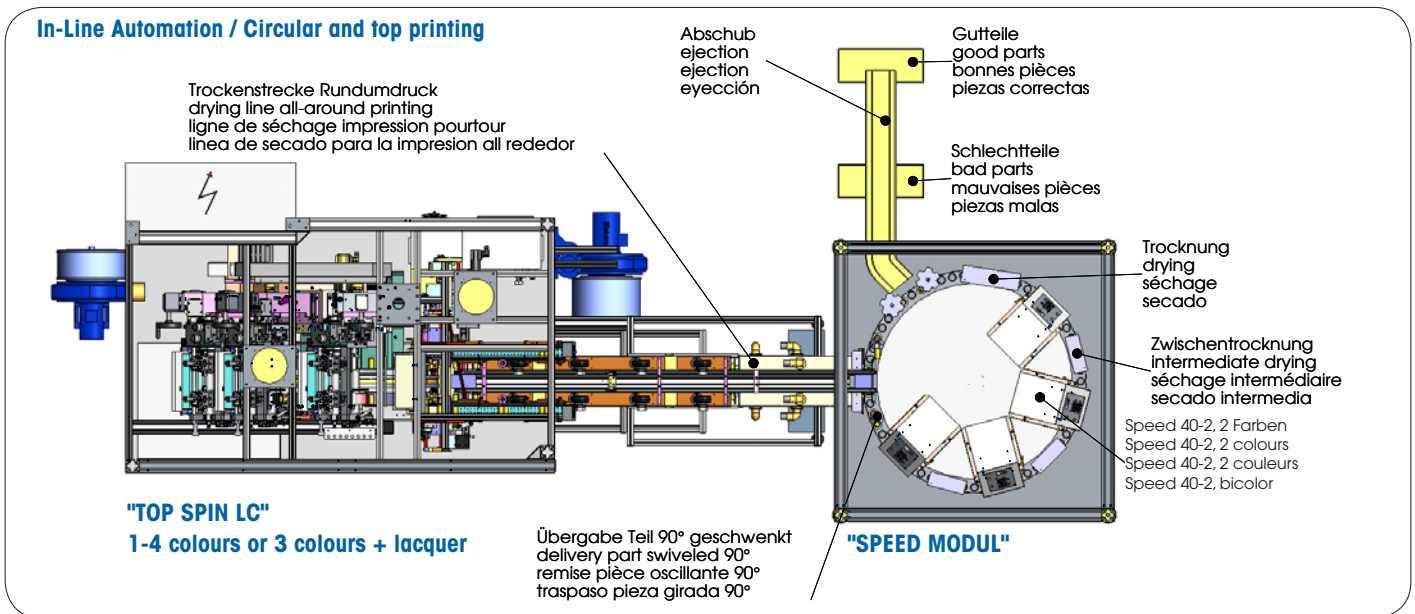

Speed Modul	Art.No. 01 05 02
Print image size	up to Ø 38 mm
Printing part size	up to Ø 70 mm
Output	up to 15.000 parts/h, 1 to 4-colour

Technical Description:

Flat printing materials? Small parts? High part output? High speeds? Printed image with high fitting accuracy?

The standardised module unit "Speed Modul" in combination with the new electromechanically driven standard tampon printing machine "Speed 40-2" makes this possible.

The "Speed 40-2" is a quick shortstroke machine which represents a new construction series. The quickest cycled electromechanical machine on the market! Output up to 8.000 cycles/h.
